Innovation never felt so good.™

Dave Lennox *Signature*[®] Collection Variable Speed Air Handler

Innovation never felt so good.[™]

Variable speed blower motor for quiet operation, enhanced humidity control and added comfort

High-efficiency evaporator coil provides excellent heat transfer for energy efficiency

Optimized for non-ozone-depleting R410A refrigerant. Meets the EPA's (Environmental Protection Agency) most stringent environmental guidelines

Multi-position design offers installation flexibility

Designed to deliver on every comfort count, Dave Lennox *Signature*[®] Collection air handlers use innovative variable speed technology to maintain even temperatures, while slowly circulating air throughout your home. Slow, steady circulation of air results in lower humidity levels and better air quality.

QUIET, VARIABLE SPEED AIR HANDLERS FOR VIRTUALLY ANY APPLICATION

Lennox' variable speed air handlers deliver exceptional comfort, quietly and efficiently. The variable speed motor gradually increases speed, so there's no sudden blast of air at startup. And compared to a standard motor, they use two-thirds less energy. They take technology to new heights, so your utility bills reach new lows. You gain comfort and save money.

Comfortable

Increases comfort and efficiency, while minimizing sound

The variable speed motor ramps up to speed slowly, instead of reaching full capacity all at once. By gradually varying its speed, this motor runs more quietly and efficiently, and it delivers more even temperatures than conventional single-speed motors.

Healthy Provides

continuous air circulation, so you breathe easier

During warmer months, the variable speed motor allows your air conditioner to remove moisture from the air for improved comfort and air quality. And low-speed fan operation increases the effectiveness of your filters, allowing them to capture and remove more contaminants.

WARRANTY

10-year limited warranty on covered components.

TEMPERATURE SWING COMPARISON

VARIABLE SPEED MOTOR

QUIET, EFFICIENT COMFORT—YEAR AFTER YEAR

CONTINUOUS COMFORT NETWORK

The industry's first integrated home comfort solution.

The CBX32MV air handler is designed to easily integrate with other quality Lennox® products for complete, continuous comfort.

XC21/XP19

The most quiet and efficient central air conditioner and heat pump you can buy.*

Harmony III™ Zoning System

Customized temperatures for room-by-room comfort.

ComfortSense™ 7000 Series

Touchscreen Thermostat

Precision temperature and humidity control.

EvenHeater™

Supplemental Heater

Staged supplemental heat for even greater comfort.

CBX32MV

- Optional Electric Heat** – Provides supplemental heat for added comfort.
- Corrosion-Resistant Cabinet** – Offers long-lasting reliability with a durable, baked-on finish.
- Variable Speed Blower Motor** – Allows for enhanced humidity control and improved indoor air quality for added comfort.
- Insulated Blower Compartment** – Reduces sound for quiet operation. Meets Florida standards for less than 2% air leakage from unit.
- High-Efficiency Evaporator Coil** – Provides excellent heat transfer and efficiency.
- Efficient Check and Expansion Device** – Ensures highly efficient operation and uses non-ozone-depleting R410A refrigerant.
- Tool-Free Filter Access** – Allows easy filter replacement for improved air quality.
- Antimicrobial Drain Pan** – Includes an antimicrobial agent that inhibits mold and mildew growth and is made of a durable composite material that won't corrode or rust.

*A combination of sound ratings established per ARI's test standard: 270 and efficiency ratings established per ARI's test standard: ANSI/ARI 210/240-94.

Note: Due to Lennox' ongoing commitment to quality, all specifications, ratings and dimensions are subject to change without notice. Warranties noted apply to residential applications only and are limited. Please see actual warranty for details.

Lennox is proud of the fact that these products have earned the Good Housekeeping Seal.

CUSTOMIZE YOUR COMFORT

Lennox® heating, cooling and indoor air quality products are designed to provide efficient, economical comfort—not only as individual units, but also together as an integrated system. This combined network of products delivers on every comfort count, from consistent temperatures and balanced humidity to improved indoor air quality. Lennox also offers a line of residential generators, which provide safe, reliable standby power in the event of outages.

DEALERS YOU CAN COUNT ON

Choosing the right dealer for your home's heating, cooling and air quality needs is every bit as important as choosing the right brand. We think you'll agree our independent dealers are a big reason you can count on quality customer service whenever you call. Your Lennox dealer's dedication to quality shows in his knowledge, training and expertise in designing the right system for your home, installing it properly and keeping it running perfectly for many years to come.
